ENVIRONMENTAL POLICY

We, the employees of CHIRANA T.Injecta, a. s., are engaged in the manufacturing of medical products (such as injection syringes, needles, and other medical products) in a way that minimizes the negative impact on the environment. We are committed to complying with all relevant legislative and regulatory requirements related to the environmental protection and to continuously improve our company's environmental performance through the efficient use of resources, prevention of pollution and supporting of sustainable development.

We will achieve this by:

- **Identifying and managing the environmental aspects within our processes in order to minimize negative impacts on the environment.**
- **Fulfilling the applicable legal, regulatory, and other mandatory requirements during the increasing of environmental awareness.**
- **Maintaining a clear focus on pollution prevention and other specific commitments relevant to the context of the organization, including reducing the consumption of resources such as water, energy, and raw materials.**
- **Effective usage of scientific and technical knowledge, the skills and experience of our employees, as well as the experience of our customers and suppliers, which contribute to more environmentally friendly production of medical products.**
- **Increasing the environmental awareness and responsibility of all employees through training and communication.**
- **Continuously improving the environmental management system in order to improve environmental behaviour.**
- **Actively fulfilling our mandatory requirements.**
